A perfect planner to meet your classroom needs, based on extensive research with practising teachers.

- **No Unnecessary Extras:** This planner does not include an attendance section, as the majority of teachers now record attendance digitally.
- **Plenty of Space for What Matters:** With extra room for weekly planning, parent-teacher meetings and observations, this planner is built for real classroom needs.
- **Comprehensive Class Details Section:** Easily record all student information in one dedicated place, including seating charts, birthdays and assessment results.
- **Customisable Tabs:** Personalise your planner with write-on tab dividers that make important sections quick to find, allowing you to flip between different sections with ease.
- **Ample Space for Weekly Planning:** Keep track of lessons, homework assigned and topics covered, with a full double-page spread per week of the academic year.
- **Compact & Portable:** Smaller than traditional teacher planners, it is easy to carry and store.
- **Durable & Reliable:** A sturdy hardback cover eliminates the hassle of flimsy spiral bindings.
