Educate.ie
**Post-Primary
Teacher
Planner
2025-2026**

**Your Essential
Teacher Planner
for 2025-2026!**

As a result of extensive research and gathering valuable teacher feedback, Educate.ie has created the perfect planner to meet your needs. Every detail has been carefully considered to make planning easier, more efficient and tailored to what post-primary teachers truly need.

- **No Unnecessary Extras:** This planner does not include an attendance section, as the majority of teachers now record attendance digitally.
- **More Space for What Matters:** With extra room for daily planning, assessment records and behaviour tracking, this planner is built for real classroom needs.
- **Individual Class Sections:** Easily track details for up to eight separate classes, including seating plans, schemes of work and assessment results.
- **Customisable Tabs:** Personalise your planner with write-on tab dividers that make important sections quick to find, allowing you to flip between different classes with ease.
- **Weekend Days Included:** The month-at-a-glance pages include Saturdays and Sundays for teachers who wish to record information for all seven days.
- **Compact & Portable:** Smaller than traditional teacher planners, it is easy to carry and store.
- **Durable & Reliable:** A sturdy hardback cover eliminates the hassle of flimsy spiral bindings.
- **Ample Space for Daily Planning:** Keep track of lessons, homework assignments and topics covered, with a full page per day of the academic year.
- **Behaviour/Incident Reports:** Keep records of student behaviour and incidents all in one place.
- **Meeting Logs:** Dedicated space for staff, parent-teacher and subject department meetings.
- **Extra Notes Pages:** Jot down important reminders, reflections and observations throughout the year.

Stay organised and on track with this comprehensive planner, designed specifically for busy post-primary teachers.

Take a look inside...

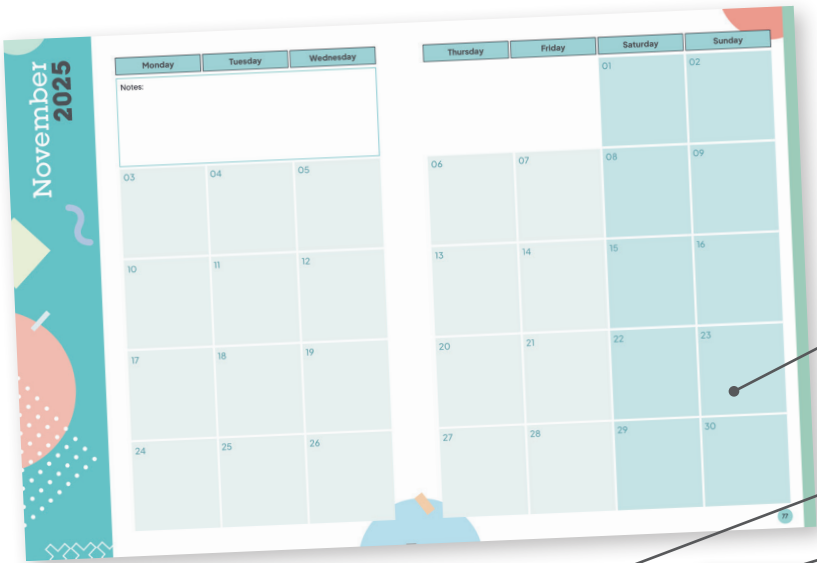

The Educate.ie planner boasts a fresh, modern design.

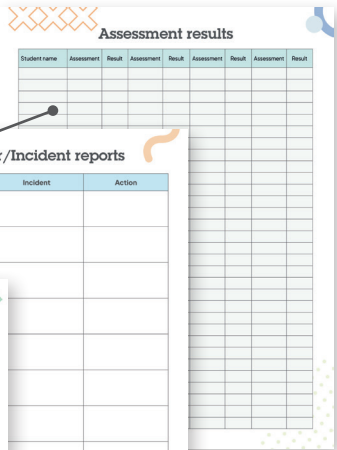

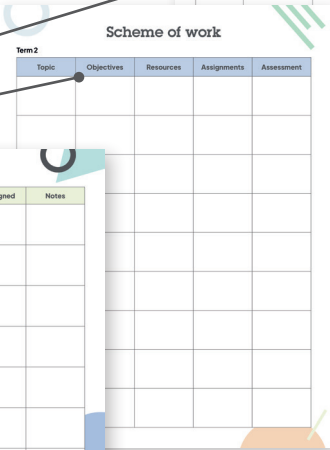

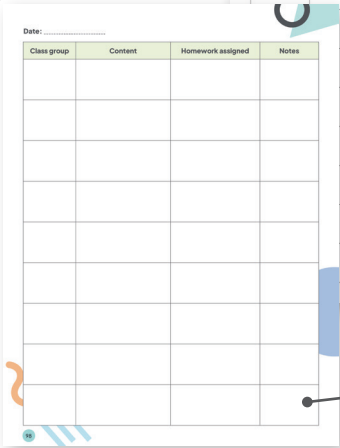

Inclusion of customisable tabs for complete personalisation of your planner.

Sections are separated and colour coded to make planning easier.

The month-at-a-glance diary is laid out in a double-page spread, offering a practical and efficient way to plan ahead.

This planner provides ample space for daily lesson planning, organising schemes of work, recording results and tracking behaviour/ incidents.

The spacious daily planner section includes a page per day of the academic year.
